HARDY FALL ASTERS

For a brilliant mass of color in the early fall garden, as well as for cut flowers for the home, very few plants equal the Hardy Asters. They are easily grown in full sun in any good average garden soil. The fall-blooming varieties are benefited if they are divided and replanted every year, or at least every other year.

STRIKING NEW HARDY ASTERS

For Spring 1952 First Offering

You will want to try at least some of these 5 English Importations. They are really beautiful.

Eventide. Ballard's best. A masterpiece from England. Striking deep violet blue, huge and almost full. Trimly erect, free and vigorous, its abundance assures long life in American Gardens. Fine for cutting. 3 ft.

Jean. A flower-laden 18" dwarf of wondrously clean foliage. Very free blooms of soft deep blue. The individual blooms are large, about 2 in. across, and semi-double. You'll simply love it.

The Dean. First real carmine pink in family, luxuriously aglow in September sun. Large single blooms ideally formed in full, airy sprays. Very free blooming 3½ ft. plant. First rate garden subject.

Red Sunset. Deep, rich rose red, a magnificent 3 ft. pyramid of lively brilliance. Later than many—fine season stretchers. One of the most aptly named border beauties.

Winston S. Churchill. England's grand old patriot, that epitome of courage and warm-blooded love of life, illustriously honored, like "Winnie" the Aster is sturdy, stocky and vibrantly alive with color. Richest, imaginable glowing beetroot-purple—the reddest of all Asters! Completely dominated surroundings. A fitting tribute—a man's plant!

Prices of any of the above varieties: Potted Plants, 70c each; \$6.00 per 10; \$50.00 per 100.

PRESENTING SWEET MEMORY

Offered for the second time, it is the hardy carnation you have been waiting for. This lovely new perennial carnation, it could be said, has all the good features that a plant needs to be really outstanding. It is perfectly hardy, has, large double, sweet-scented, carnation-like flowers; but yet, these flowers are carried on short, sturdy stems which never flop over. Its growth is so compact and tight, forming a cushion-like plant. Just picture a matured plant, with carnation-like foliage and so compact in growth, covered with two inch fully double carnation-like blooms on the sturdy stems eight to twelve inches high. It blooms late May and June, and a few blooms intermittently all summer. The color, is pure white with crimson-maroon spots at various parts in the center of the flower. All our visitors who have seen it have liked it immensely, and we know that you will too. It is as easy to grow as any other pinks or carnations, doing beautifully in any average garden soil which is well-drained and in a sunny location. It will stand a little shade, but not too much. You owe it to yourself to try this outstanding new plant and be among the first to have Sweet Memory in your garden. Sturdy, potted plants that will give you a few blooms off and on all summer this year, and will develop into nice, big bushy plants and give you at least ten times as many blooms next year and thereafter. \$3.00 per 10, \$25.00 per 100.

P.S. Sweet Memory's compact and bushy growth, and evergreen foilage all year round, makes it outstanding plant for hedging and bordering flower beds.

CHIVES (*Allium Schoenoprasum*)

12 in. The smallest variety of the Onion family. Try adding the finely chopped leaves to your omelets and salads. Grow in rich soil. \$2.00 per 10, \$15.00 per 100.

‡CIMICIFUGA (*Bugbane*)

Orientalis Atropurpurea. A new red Lenten Rose producing crimson-purple flowers, from February to April. Easy and strong growing variety. Many blooms on 12 to 15 inch stems. \$7.00 per 10, \$65.00 per 100.

*Hemerocallis***(DAYLILY)**

The hybridizers have wrought wonders with the old-fashioned Daylily. The improvements include a wider color-range, an extended period of bloom, larger flowers, and sturdier plants. What is more, *Hemerocallis* are amazing in their adaptability; they are extremely hardy and will thrive under the most ordinary conditions blooming in full sun or partial shade. Their vigor is especially evident in dry seasons and insect pests have little effect on them.

DR. REGEL—Rich Orange-Yellow. May \$2.25 per 10, \$18.00 per 100.

‡**Carolinana.** Yellow pea-like flowers on 2 to 3 ft. stems; May-June. \$2.00 per 10.

*THYMUS—Thyme

Thyme, in its many forms, is one of those universally loved, fragrant plants. Some varieties are shrubby, woody types, while others are low growing and creeping. All are interesting for various garden uses, as noted. All varieties do best in well-drained, sandy soil in full sun.

Caraway-scented (*T. herba-barona*). 4 in. Trailing type, useful for flavoring beef dishes.

Common (*T. vulgaris*). 12 in. Upright, somewhat spreading habit of growth; narrow leaves and purplish flowers. The most widely used Thyme for flavoring poultry dressing.

Crimson (*T. Serpyllum coccineus*). 4 in. Prostrate, creeping habit of growth; crimson flowers. Used in wall plantings, rock gardens, and in the crevices of stone walks. Dark green foliage.

Lemon (*T. citriodorus*). 6 in. Blue-green leaves with a distinct lemon fragrance and flavor.

Lemon, Golden-edged Variegated (*T. citriodorus aureus variegatus*). The dark green leaves are edged with gold. Thick bushy plants.

Lemon, Silver-edged Variegated (*T. citriodorus argenteus variegatus*). Similar to *T. citriodorus*, but the slightly small leaves are margined with silver.

White (*T. Serpyllum albus*). Thick close mats of bright green foliage are covered in early summer with tiny pure white flowers. Best of the creeping types for winter effect.

All above Thymes \$2.25 per 10, \$18.00 per 100.

TRADESCANTIA (Spiderwort)

The common old-fashioned forms were known to our grandmothers, who had many names for them. The hybridizers have been at work improving them not only in color and size of bloom, but they have considerably lengthened the period of bloom.

***Brevicaule.** A dwarf species with rose-pink flowers. May to July. \$1.75 per 10, \$12.00 per 100.

NEW TRADESCANTIAS

Ideal Plants for Shady Locations

Sent to us by the U. S. Department of Agriculture

The descriptions are those of the Department.

Height 15 to 20 inches.

Blue Stone. Low-growing. Large, rich blue flowers. \$2.00 per 10, \$15.00 per 100.

Iris Pritchard. White flowers, heavily stained with azure-blue; blue center. Late bloomer. \$2.50 per 10. \$2.50 per 10, \$20.00 per 100.

James Crawford Weguelin. 18 in. Large flowers of a uniform light azure-blue. Very pleasing. \$2.50 per 10.

James Stratton. A variety with large flowers, 2½ inches from tip to tip; color deep delphinium-mauve, slightly shaded with rose. \$2.00 per 10, \$15.00 per 100.

Leonora. The very fine flowers are a deep rich glowing violet. \$2.00 per 10, \$15.00 per 100.

Pauline. Flowers are rosy mauve. A vigorous variety. \$2.50 per 10, \$10.00 per 100.

Purple Dome. A vigorous plant with large clusters of rich purple flowers. \$2.00 per 10, \$15.00 per 100.

TRILLIUM (Woodlily)

Ideal for the shady woodland or rock garden.

Grandiflorum. The welcome white blooms of this early spring native plant are indispensable in the shady garden. \$2.00 per 10, \$15.00 per 100.

Sessile Lutem Yellow. This plant requires no care when given its two requirements—shade and fairly loose woods soil. The leaves are large and broadly ovate, being dark mottled green. Flowers are lemon-yellow and have a long blooming season in April and May. \$2.00 per 10.

Stylosum. A desirable rare mountain species. Large, nodding, rose-pink flowers in early spring. Plant in semi-shade in woodland, border or rock garden. \$2.00 per 10.

‡TRITOMA (Red-Hot Poker)

These striking spire-like blooms make effective accents in the perennial border and are charming in flower arrangements. Plant in a well-drained, sunny place and give the plants a light mulch of excelsior or any other suitable material for winter protection.

All Tritomas named varieties are sold out till Fall 1952; we do have a good supply of the mixed hybrids in nice plants.

Glow. 18 in. Very graceful. Produces many coral-red blooms in June. Small, graceful foliage. \$3.00 per 10, \$25.00 per 100.

Golden Scepter. 3 ft. Hardy, vigorous variety with saffron-yellow spikes during late June and early July. Beautiful planted with light blue delphiniums. \$2.50 per 10, \$20.00 per 100.

New Hybrids. Flowers of various shades: orange, scarlet, etc., on 2 to 3-foot spikes, in June and July. This is an outstanding strain. \$2.50 per 10, \$20.00 per 100.

Primrose Beauty. Beautifully formed spikes of clean primrose-yellow stand over 3 feet tall. Blooms in late summer and has been surprisingly hardy. \$2.50 per 10, \$20.00 per 100.

Robin Hood. A new giant hardy Tritoma with better color, larger blooms, and more hardiness than the well-known Red-Hot Poker. Strong stiff stems 2½ feet high. Blooms freely in late summer months. \$4.00 per 10, \$35.00 per 100.

White Giant. 3 to 4 ft. An outstanding novelty with extra-large, creamy white blooms. Produces almost continuously the entire summer. \$3.50 per 10, \$30.00 per 100.

White Fairy. Graceful white flowers, freely produced nearly all summer on 2 to 3 ft. stems. \$3.00 per 10, \$25.00 per 100.

TROLLIUS

All Trollius prefer rather rich and moist soil, and at least partial shade. These giant buttercup-like flowers are very showy and create much interest.

Europaeus, Pritchard Giant. Showy, very large, globe-shaped, orange flowers on 2-foot stems during May and June and occasionally again in the fall.

Europaeus, Lemon Queen. Similar to the above but with lemon-colored flowers.

Ledebouri, Golden Queen. 3 ft. A handsome variety with large open flowers of beautiful golden yellow. In bloom about three weeks later than Europaeus sorts—June and July.
Any above Trollius \$3.00 per 10, \$25.00 per 100.

VERBENA (Hardy Verbena)

Flame. Of a creeping habit and belonging to the Chamaedryfolia group therefore not dependably hardy in cold sections of the country, however it can be wintered in the cold frame or greenhouses, it's such a beautiful plant, covered with brilliant rose-scarlet blooms from spring to heavy frost in fall, that if the plant only lived one season, one would more than get its money's worth. Potted plants \$2.50 per 10, \$20.00 per 100.

VERONICA (Speedwell)

Blue Champion. A novelty of merit, being a form of the well-known *Veronica subsessilis* but much sturdier and a freer bloomer, with lighter blue flowers. It is an excellent plant for late summer bloom. Grows 2 to 3 feet high and looks particularly well when planted with any good pink or white phlox. This is one of Mr. Cummings' originations, and what a fine job he did! Plant in good average garden soil, in full sun or light shade. Potted plants. \$3.00 per 10, \$25.00 per 100.

†**Blue Spire.** A recent introduction known for its vigor and long spikes of blue. July, August. \$2.50 per 10, \$20.00 per 100.

Icicle. New. A beautiful new pure white form of the *Subsessilis* type, blooms nearly all summer, healthy strong grower of neat growth and stiff 18-24 in. spikes on compact plant. Potted Plants \$3.50 per 10, \$30.00 per 100.

***Incana.** 12 in. Silver-gray foliage. Deep blue flowers in June. \$2.00 per 10, \$15.00 per 100.

***Incana Rosea.** New. Same as above variety with lovely pink flowers. \$2.50 per 10, \$20.00 per 100.

†**Longifolia Subsessilis.** Charming summer-blooming hardy plant that deserves a place in every garden, large or small. Beautiful blue flowers 18 to 24-inch

***Rupestris.** Creeping habit. Deep blue flowers in late May and June. \$20.00 per 100. Sold out for this season.

***True Blue.** Crater Lake blue. 12 in. A lovely deep blue variety. Very attractive. May, June. \$2.00 per 10, \$15.00 per 100.

*†VIOLA ODORATA (Sweet Violet)

Rosina. The new pink fragrant Violet. Lovely pink and rose shades. Blooms freely in the spring and again in the fall. \$2.50 per 10, \$20.00 per 100.

Royal Robe. A distinct addition to the Violet family that deserves a place in the shady rock garden and as a ground cover. \$2.50 per 10, \$20.00 per 100.

We will promptly furnish the information of what we can supply, grade, etc.

SELECTED SUMMER BLOOMING BULBS

Tuberous—Rooted Begonia

Finest Strains

Among the very showiest of flowers, blooming from summer to fall. Any good light soil with plenty of humus, in partial to fairly shaded location, will grow good Begonias. Mix a liberal amount of woods dirt, well rotted manure compost, or peat moss to make your soil light in texture. Water often during dry season. They may be grown in window-boxes or large pots on shaded porches, or in any good selected spot in the garden which is fairly shaded and away from roots of nearby trees that would rob all its moisture and food away from them. Such places as the north side of a wall or foundation is an ideal spot. By studying various parts of your home surroundings, there is bound to be a small space where these exotic beauties can be grown and bloom and repay you with thrills for your efforts. Tuberous Begonia blooms are ideal cutflowers, particularly to float in water. **Top-size bulbs all at same prices. Each color and type, labeled and packed separately. 12 for \$2.50, any 25 for \$4.50, any 50 for \$8.00, any 100 for \$14.50.**

Our special mixture including all types listed here except the hanging type, 12 bulbs for \$2.00, 25 for \$3.75, 50 for \$7.00, 100 for \$12.50.

DOUBLE CAMELLIA-FLOWERED

The most popular of the tuberous-rooted Begonias with very showy camellia-like flowers up to four to six inches across. Available in **white, pink, red, orange, yellow, salmon, and scarlet.**

DOUBLE CARNATION-FLOWERED

Large, frilled, carnation-like flowers. **White, pink, red, orange, yellow and salmon.**

GIANT, SINGLE, FRILLED

Very large, single, frilled flowers. **White, pink, red, orange, yellow and salmon.**

DOUBLE-FLOWERED HANGING BEGONIA

Same type flowers as the Double Camellia-type, but somewhat smaller in size, produced in great quantities in weeping plant. They are ideal for window-boxes, hanging baskets, and charming in the rock garden. **White, pink, red, orange, yellow, and salmon.**

Acidanthera Bicolor Murielae. New introduction from western Abyssinia. Rigid stems, 3 feet and taller, with many very sweetly scented, 4-inch, white flowers with crimson-maroon blotch. Excellent for cutting. Mid-August, September. \$1.50 per doz., \$10.00 per 100.

Montbretia, New Earlham Hybrid. One of the brightest of the summer-flowering bulbs, giving a profusion of bloom ranging in color from golden yellow to brilliant scarlet, from July to frost. The single flowers are gracefully arranged along a clear, stiff stem about 2 feet long. A very desirable cut flower. \$1.25 per doz., \$8.00 per 100.

Tigridia. Plant in a sunny position in flower border or bed, in well drained soil. Set out in May. They give a continuous display of beautiful colors in mid-summer. Each 2-foot stalk produces several flowers. \$1.00 per doz., \$6.50 per 100.

Tuberose. Double The Pearl. Lovely flowers of thick, wax-like texture set close to the 2 to 3-foot spike. A fine summer-blooming plant in the garden and for cutting. Rich, exotic fragrance. \$1.50 per 10, \$12.50 per 100.

ANEMONE

These popular flowers of French origin are exceedingly brilliant in color and excellent for cutting. They like to be planted about 6 inches deep in a cool, moist but well-drained soil. Will establish without any trouble and remain for years. For northern states we advocate early spring planting; for the southern section of the country, fall planting is best. Cover in winter with strawy manure.

Hardy Chrysanthemums

One of America's finest and most up-to-date collection. In this collection we have included representations of all groups, starting with the Azalea or Cushion Mums, large and medium doubles, singles, buttons, pompons, and including some of the best of the new English and a selection of the exhibition greenhouse type. You will notice that many of them are new this year, and many of them only of recent years. This collection represents the originations of all the leading Chrysanthemum hybridizers in the country, such as Bristol, Dr. Krouse of the University of Chicago, Lehmans, and many others including some of our own. In order to save as much space as possible we have omitted the originators' names as well as the year they were introduced. Should anyone desire this information we will be glad to give it.

Explanations as to the letters, etc. following the variety name.

E.E.—extra early blooming varieties, usually starting in August and sometimes earlier.

E. —early varieties, starting to bloom early to middle of Sept.

E.M.—early to midseason, varieties starting to bloom about Sept. 20th to Oct. 1st.

M. —midseason, varieties starting to bloom early Oct.

M.L.—midseason to late, varieties starting to bloom about Oct. 10th to 20th.

L. —late, varieties starting to bloom after Oct. 20th.

The blooming guides given is the observations of several years in our locality which is in the western part of Maryland near the Blue Ridge Mountains. As many of you know, Chrysanthemums will show a great difference as to when they start to bloom from one year to another. It is often a variety may bloom one to two weeks earlier one year, and one to two weeks later the next year. Therefore, the time given is about the average. I feel quite sure you will find it as accurate as possible in most any part of the country.

Some of the words used, such as cushion type are the Azalea or Cushion Mums of the original or varieties that have been developed and are so much like them that they can be classed as such. The large double varieties are those that have blooms 3 inches across or more and can be classed with such known varieties as Lavender Lady and Mrs. P. S. DuPont. The medium double are those of medium size, usually around 2 to 3 inches across, and would be something on the order of Harbor Lights, and Red Velvet. Semi-double varieties are those that have 2 or more rows of petals and show the center. Single varieties are those usually with one row of petals, occasionally two. Button type, Cushion Pompon, and Pompons are themselves explanatory. English varieties are not marked, as this is more or less a well known fact that the blooms are very large and in most cases are fully double. The greenhouse varieties offered are the exhibition big ball shaped bloom which are often seen in the florists' windows or greenhouses during the fall, and which always demand fancy prices. These, of course, need disbudding to get perfection of blooms.

Although most Chrysanthemums are suitable for cut flowers one way or another, we have indicated varie-

ties which we think are the best. The ones with one † are recommended varieties. Those marked with two †† are a must varieties highly recommended. These are the ones that usually have the longest stems and most perfect in blooming habit.

Prices given are for strong 2" wooden bands which are the equal of at least 2½" clay pots. Prices on rooted cuttings are marked R. C.

In preparing this list, the thought is to give you brief but accurate description of this useful perennial. I hope that you will find it helpful in selecting varieties best suited for your purpose. Inquiries regarding further information are always welcome.

Potted plants: 5 at 10 rate; 25 at 100 rate of a variety. R. C. 6 at 12 rate; 25 at 100 rate not less than 6 sold of one kind.

Super New English Chrysanthemums

For the past three years, under special permit, we have been importing these novelties, and we are importing several new varieties again this spring. As they are tested in our gardens, and sufficient stock is worked, we intend to offer them to you from time to time as they are ready. These novelties have created quite a stir with us, as well as with thousands of visitors who have seen them. Although they are high in price, they are well worth it; and when the customers see them, they never object to paying the price for them. Their colors, the size of the blooms, and their free flowering habits are unequaled by any of the older English mums we have ever seen. Practically all of them have very large flowers from four to six inches across. They can either be grown to give a mass of blooms, or can be disbudded and grown for exhibition purposes. Our supply of these superior new varieties is very limited; therefore, we suggest that you send your order as soon as you can, to avoid disappointment. They are no harder to grow than any other hardy garden chrysanthemum. Any good garden soil in full sun will produce excellent blooms.

Albion, M. Large white, incurving flowers with wide petals. An exhibition variety. 90c ea.; 3 for \$2.50; \$7.50 per 10.

Alfreton Yeoman, M. A very attractive combination of intense maroon with silver reverse. Firm, incurving florets and erect in habit with very large flowers. One of the finest exhibition varieties. 75c ea.; 3 for \$2.00; \$5.50 per 10.

Amber Bright, E.M. Large, full flowers of reflexing form with numerous rolled petals. Bright amber-bronze. For exhibition. 75c ea.; 3 for \$2.00, \$5.50 per 10.

Amber Crown, M. Attractive bright golden amber. 75c ea.; 3 for \$2.00; \$5.50 per 10.

Balcombe Brilliance, E.M. Brilliant red flowers of medium size, freely produced. Very fine. 75c ea.; 3 for \$2.00; \$5.50 per 10.

Balcombe Triumph, E.M. A bright red with light bronze reverse. Large, solid flowers slightly incurving. 75c ea.; 3 for \$2.00; \$5.50 per 10.

Bronze Barbara, M. Very large, a beautiful bronze. 75c ea.; 3 for \$2.00; \$5.50 per 10.

Prices on rooted cuttings of all English Mums marked with an x, are \$4.00 per doz.; \$30.00 per 100; 6 at doz. rate; 25 at 100 rate. Or let us quote you on your requirement.

Extra Early Blooming English Chrysanthemums

(THE SWEETHEART GROUP)

This is really a class by itself. They have lovely colors, and blends. They usually start to bloom in September, and continue until frost; however, they are somewhat sprawly in their habits of growth, and if they are desired to grow upright, they must be staked. Otherwise, they will make a sprawly plant about 18 inches high. This group could be called the Cascade mums, and could be very effectively used on the top of a wall to cowl over it. They also would be excellent to plant on slopes or banks. The flowers are all double, and of medium size, 3 to 4 inches across, and they are very free bloomers.

Unless otherwise noted all are \$3.00 per 10; \$25.00 per 100 Potted Plants.

xSweetheart, E. Rose-pink, tinted with bronze.

Bronze Sweetheart, E. Rich bronze with gold reverse.

Christine Sweetheart, E. A. bright cherry-red with all the good features of Sweetheart.

Egerton Sweetheart, E. Very beautiful salmon-bronze flowers, excellent for cutting.

Golden Sweetheart, A beautiful new golden yellow. 60c ea.; 3 for \$1.50; \$4.00 per 10.

Pearl Sweetheart, E. A new color in this group. 60c ea.; 3 for \$1.50; \$4.00 per 10.

xSalmon Sweetheart, E. Lovely salmon-pink.

Varieties marked with an x are available in Rooted Cuttings at \$2.00 per doz.; \$15.00 per 100.

NOTE ALL VARITIES OF ENGLISH MUMS PRICED AT \$1.00 EACH ARE 3 OF ONE KIND FOR \$2.50; 10 OF ONE KIND \$7.00.

4 NEW BRISTOL CHRYSANTHEMUMS FOR 1952

All 4 at 75c each, Potted Plants;

Retail price is \$1.25 each

ALEX CUMMING—From the last batch of seedlings planted by the late master mum breeder. Will delight all with its size, vigor and color. Superb 4 inch flowers open the richest, purest cerise possible, and soften to cleanly pleasant rose. The majestic blooms incurve at center and recurve at petal ends, giving overall exotic appearance of a greenhouse commercial. Faintly golden tinge at flower's center adds lovely glow under artificial light. A lusty 2½ foot plant, it offers many vivid 18 inch stems for cutting single blossoms. Really a bouquet to each plant and a true eye-ful from October 3 on.

FASCINATION—Lovers of the huge in mums will really adore this "Glamazon" of the fall garden. A large, shapely decorative often 4 inch in size, of a lovely silvery lavender pink, deepening the least bit at the centers. As a further charm, the blossoms occasionally become a dreamy, almost pure white. A paragon of beauty from the swelling of the deep rosy red buds in late September. A sturdy 2 foot grower, it has many long stems, often with only one stunning flower per stem. Truly a marvelous blend of "big and beautiful."

JUBILEE—We offer this jaunty creation as a most useful garden ornament. A stocky 18 inch plant, it is a mass of red from October 1 on, and will liven any yard for weeks. The flower is informally pompon, 1½ inch across, becoming a clear deep red after opening hint of crimson. Will be splendid for bedding, and sprays are unparalleled for short bouquets. Answers a definite need—will be widely grown.

SPINDRIFT—At Bristol we think of this gem as an improved "Jean Cumming", long the acme of perfection for a white flower. Since that finely molded classic is one of the parents of "Spindrifft" the comparison is obvious. Beautifully double 3 inch decorative with a tiny hint of cactus petallage, from the Dahlia-like edges flaring out. Has softest cream centers, but soon becomes as ideally white as any mum. A stocky 18-24 inch plant, grand for short-stemmed bouquets. Certainly no lover of pure grace and beauty can ignore it. October 3.
